### ***Searching the FSLM Archives***

As you use this annual index, please remember that **Fire Service Labor Monthly** has an improved *search engine* in our on-line newsletter archives. This search engine employs several features that give you faster and more comprehensive results. A keyword inquiry will produce all issues from 1996 forward in which the requested word or phrase appears in any section of the newsletter. After clicking on the selected issue, use the “find” command in your web browser to locate the specific article containing the inquiry. You will be taken to the exact point in the issue where the word or phrase is located. More recent newsletters are posted in the Adobe Acrobat format (pdf), which means that the archive version is identical in layout to the print version subscribers receive.

We invite you to visit the **FSLM** archives website and search the archives for yourself. You can link directly to the archives by going to <http://www.justex.com/FSLM/>. Remember that your password is found in the latest newsletter you received.
